

FRENCH AIRMEN ACTIVE BRITISH STOP THRUSTS

GERMANY BLAMES WEATHER FOR STOP IN DRIVE AND THREATEN BIG THINGS IN NEAR FUTURE

SNEER AT SUCCESSSES OF THE ALLIES

Amsterdam, April 3.—The pause in the fighting is a necessity, the same as in Italy on the Tagliamento. "Rain has greatly hampered our transportation," according to a Berlin dispatch published in the Cologne Gazette today.

The Volks Zeitung declared the pause is not due to the enemy's success but to the order of the German command. Railroads and bridges must be repaired and munitions and supplies sent up. The enemy will soon realize we intend to go on.

HAIG'S REPORT

By United Press

London, April 3.—In the neighborhood of Fampoux a strong enemy party attacked yesterday at dawn but was repulsed after sharp fighting. Field Marshal Haig reported today. A number of German dead were left on the field. A few prisoners were taken. (Fampoux is 4 miles east of Arras.)

In the neighborhood of Arette which is now ours a successful local operation last night resulted in more than a 100 prisoners captured and three machine guns taken. (Arette is 10 miles south of Arras.)

In the neighborhood of Loeu and in the neighborhood of Poelcapelle resulted in the capture of prisoners and a few machine guns. (Loeu is three miles north of Arras.)

Poelcapelle is 6 miles northwest of Ypres in Belgium.

THE FRENCH REPORT

By United Press

Paris, April 3.—On the Somme and Oise fronts there was increased mutual artillery firing the French war office reported today. South of Moreuil between Moreuil and Mailly Rainevr (2 1/2 miles southwest of Moreuil) a German attack only gained a footing at one point in our advance lines. North of Rollet an enemy attempt broke down. On the north of Kemont the French succeeded in detailed operation considerably enlarging their position and took 60 prisoners. French aviators on Sunday and Monday threw 24,000 pounds of projectiles on railroads and camps in the vicinity of Ham Chauny, Noyon and Roye. A big fire started in the Chaunys station. Eight German machines were brought down.

The Western league is to have several new members this season. Among the new-comers are Bill Jackson at Omaha, Rudy Hulswilt at Joplin, and Johnny Nee at Topeka.

Jack Malone is the latest St. Paul boxer to make a bid for fame. Malone looks like a comer and he may in time share fistie honors with the other Minnesota stars, Fulton, Ertle, O'Dowd and the Gibbons brothers.

COUNT CZERNIN IN SPEECH TELLS OF PRESIDENT'S AIM

By United Press

Amsterdam, April 3.—Count Czernin, Austrian foreign minister addressing the Vienna municipal council declared President Wilson probably considered Vienna more favorable ground for sowing seeds of international peace than Berlin. Czernin said Austria new ruler is favorable toward peace and that her fifty million people shared that view. To these people Czernin said Wilson is devoting his activities.

Serbia desires peace, declared Czernin, but the Allies prevent it. After being conquered militarily our enemy must be conquered morally. We do not intend to beg for peace but will enforce it by our moral rights and physical strength. Other tactics will prolong the war. Czernin's speech as received here is incomplete.

Washington—Peace talk—in the wake of Austrian and German diplomacy in the East and Russia—does not interest Washington. This is the very plain answer given by officials and diplomats today to the belated reply of the Austrian minister of Foreign Affairs to President Wilson's last war aims address. President Wilson may be said officially to feel that there is no honest intention on the part of Germany and Austria to establish a basis for a just and lasting peace. He has searched the previous peace utterances for intimation of this. In the speech of Count Czernin some weeks ago he thought he saw the possibility of an honest peace desire. Since then Czernin completely surrendered to the will of the German Junkers and the arrogant peace terms imposed on Roumania has extinguished that hope of the President.

MEET GEN. "FOSH"

New York, April 3.—The name of General Foch should be pronounced to rhyme with bosh according to Stephanie Lauzanne, editor of Le Matin of Paris, who is a French scholar.

The annual congregational meeting of the Presbyterian church will be held tonight after prayer meeting. Prayer meeting services will be at 7:30.

LENROOT LEADS BY 8000 LATE FIGURES TELL

Democratic Organization Refuses To Concede Victory To Lenroot Until Returns All In

GERGER RUNS A POOR THIRD

Milwaukee, April 3.—With returns from all sections showing Irvine Lenroot, Republican, leading by a substantial margin everywhere except in Milwaukee and a few scattered German districts, adherent of Joseph Davies, Democrat, refuse this afternoon to concede a Lenroot victory for the United States Senatorship. Republicans were claiming a majority of 20,000 for Lenroot although Lenroot's vote was only 9,000 over Davies at that time. Victor Berger, "one hundred per cent. peace" candidate of the Socialists, supported by the pro-German element, was a poor third, though his vote was large compared with the Socialistic vote in former years.

GERMANY GETTING BREADSTUFFS OUT OF UKRAINIA

By Joseph Shaplen

Petrograd, April 3.—Trading between Ukraine and Germany is in full blast. Great stores of bread are being transported from Kiev to Berlin by railway under supervision of the German commission. The forces of the Ukraine Soviet in the Konotop region have retired. After inflicting heavy casualties the enemy reached Sarym toward Rovensk. Soviet forces which were evacuating Voroshna attacked the fourth German army. On the Kharkoff front the enemy retreated in the region of Achitirsk in Lovendian. The Soviet is mobilizing forces to defend Kharkoff. Citizens have evacuated Ekaterinoslav in view of the enemy advance. A severe battle is raging near Evakevo.

BAKER STOPS NEWS ABOUT CASUALTIES ON WEST FRONT

Washington, April 3.—Publication of casualty lists from the war department was stopped today, the direct result of Secretary of War Baker's message decreeing that American headquarters' news must come only from the American headquarters in France. No lists will be issued today and none will be published from now on unless the rule is modified. Acting Chief of Staff March held that "Baker's order refers to the Department in giving out casualties inasmuch as it concerns persons under headquarters' jurisdiction."

Baker's order said news of persons and policies in Pershing's expedition should be announced solely by Pershing's headquarters. As a result of this order the Communique from General Pershing as to west front activities can be given out only at headquarters and not here. The tendency will be to stop the publication of news filtering through to Washington.

INTER-CLASS BASEBALL AT C. H. S.

There will be a number of baseball games among the different classes of the High School. The Senior class is believed to have the strongest team outside of the faculty team who say they are going to give a surprise. The Juniors, Sophomores, and Freshmen should also develop fast teams.

The Senior class challenge any of these teams to a game a week from next Friday.

It was impossible to finance a High School team for such a short season.

ACCIDENTALLY SHOT WHEN DEER JUMPS UP IN WOODS

Logan, the sixteen year old son of Mr. and Mrs. Theodore A. Cramer, of Sixth street, is a patient in the Clearfield hospital on account of an ugly bullet wound in the right leg which he accidentally inflicted yesterday morning.

Young Cramer, Leroy Brett and "Patty" Werner all high school boys, received permission from their parents to spend the Easter vacation at Crooked Run camp. They arrived at the Camp Sunday afternoon and had since been enjoying life in the woods up until yesterday morning. About 11 o'clock they were shooting mark near the camp with their revolvers. It was Cramer's turn to shoot and as he fired the target a deer jumped out of the brush within thirty yards of the marksmen. One of the boys yelled "Oh look at the deer!"

Low, the cocked revolver Cramer, gave in the direction the deer boy was pointing a revolver at him. The deer became excited and unconsciously pulling the trigger sent a 38 calibre bullet crashing downward through his right leg. The ball entered above the knee and followed down through the thigh for a distance of eight or nine inches, coming out at the upper part of the calf of the leg.

The other boy help in applying first aid to the hurt boy at his home. The boy was in a very painful condition and was unable to move. The wound was exceedingly painful and the boy was in a very painful condition. The boy was in a very painful condition and was unable to move. The wound was exceedingly painful and the boy was in a very painful condition.

A party composed of E. T. Lewis, Louis and I. E. Lucas and Albert, Alfred and John Nearhood were here today from Winburne to see Will Nearhood depart for Camp Lee.

Somewhat surprising to read of Jack Dillon being "hammered about the ring" and "knocked to the floor." Only a short time ago the Hoosier battler was humming the best of them.

To be fed to the Dodgers after 22 years of brilliant pastoring has caused the many of one Napoleon Logan to beat it.

Put that part ad in the Progress and get results.

DISTRICT NO. 1 SENDS 52 MORE TO CAMP LEE

FINAL CONTINGENT OF FIRST CALL LEAVES CLEARFIELD AT 3.45 THIS AFTERNOON TO JOIN "BLUE RIDGE DIVISION"

MINERS' EX-PRESIDENT A SPEAKER

The local Exemption Board headquarters was an extremely busy place this morning where the entire force was engaged in completing the many details incident to the entraining of the fifty-two men of the final contingent of the first draft from District No. 1 for Camp Lee.

The men all reported at 8:30 o'clock and after being properly marked up and having their baggage checked were excused for dinner with orders to report at headquarters promptly at 1:30 p. m.

Each man was provided with a sweater and comfort kit, the same being supplied by the Red Cross chapters in the communities from which he came. Those coming from districts where there were no local Red Cross chapters were supplied by the Clearfield chapter, which was called upon for and provided thirty-five sweaters.

At 1:30 the men were assembled at headquarters and after being given final instructions were placed in charge of Malcolm B. McKee, of Du Bois and Joseph Spingola, of Clearfield who will conduct the party to Camp Lee, and then marched to the court house.

Following the roll call in the court room Rev. E. V. Brown opened the exercises with an eloquent prayer.

John P. White, National President of the U. M. W. of A., who is in Clearfield attending a conference of representatives of the Federal Fuel Administration, the operators and miners of the Central Pennsylvania field, was happily secured by Chairman Woodward of the Public Safety Committee, to address the men. President White is a finished orator and he made a stirring speech to the men, pointing out to them that as soldiers of democracy in the great crucial war now engulfing the world.

Chief Clerk John M. Bain of the Exemption Board then made a lucid explanation of the War Risk Insurance and Soldier's Allotment and Compensation.

City Superintendent George E. Zerfoss, the speaker of the day, delivered an inspiring patriotic address to the assemblage. Prof. Zerfoss gave the boys the right kind of a straight from the shoulder talk that his remarks were highly appreciated was demonstrated by the applause which greeted them.

Headed by the Exemption Board the march to the station was taken up at 3:35 and after a final farewell to friends at the station the boys clambered aboard the regular 3:45 Pennsylvania passenger train and were "off to war" with the cheers of the several hundred people gathered to wish them God-speed, ringing in their ears.

Following is a list of the men who made up the party:

- Joe Spingola, Clearfield
- Robert Logan, Clearfield
- Malcolm B. McKee, Akron-Ohio
- William Bleo, Clearfield
- Francis L. Etzweiler, Clearfield
- Andrew F. Edgren, Munson
- Howard H. Shaw, West Decatur
- Thomas L. Stevens, Bigler
- John A. Johnson, Lanes
- Wm. H. Nearhood, Winburne
- Wm. Twoey West Decatur
- Jess Edmiston, Hawk Run
- Ralph Campbell, Glen Richey
- James T. Pagan, Philipsburg
- Andrew Lesko, Hawk Run
- Joseph A. Bargey, Frenchville
- Carl Wick, Munson
- Adolph Johnson, Lanes
- Paul Kyles, Winburne
- George Wm. Shillenn, Clearfield
- Anthony Wildizas, Munson
- Carl Robert Larson, Winburne
- John Leo Mayley, Hawk Run
- Stanley S. Salski, Munson
- Paul Buckford, Clearfield

Ralph P. Luke, Morrisdale
Krist Gurgul, LeContes Mills
George J. Beck, Grassflat
John E. Hamlin, Kylertown
Gaetano Lombardo, Curwensville
Franklin E. Woodling, W. Decatur
Dayton B. Spackman, Woodland
Louis Zoltoki, Clearfield
Hughie A. Poole, Clearfield
John Buck, Jr., Munson
Vincenzo Aveni, Woodland
James Harper, Glen Richey
John F. Johnson, Glen Richey
Guy William Cowder, Woodland
Oscar G. Edgren, Munson
Enoch J. Haywood, Hawk Run
Wilber DeWitt Ogden, Clearfield
John Nothnagle, Patton
William V. Sharp, Clearfield
Clair Wm. Hadden, Clearfield
Quintellio Rossi Curwensville
Victor G. Rydberg, Grassflat
William Dascavage, Munson
John Armstrong, Clearfield
Harry L. Carlson Clinton, Wis.

LOAN CAMPAIGN WILL RUN FROM APRIL 6 TO MAY 4

Subscriptions to the Third Liberty Loan will open Saturday April 6th and close Saturday, May 4th.

Those buying bonds on installments will be required to pay five per cent. on application; twenty per cent. on May 28; thirty-five per cent. on July 18; forty per cent. on August 15.

No payments are to be made to the Federal Reserve bank prior to May 5, except that individuals, paying for bonds in full may remit the entire amount of their subscription.

The Secretary of the Treasury reserves the right to allot all subscriptions in full.

If you cannot go to the front and "do your bit" you can do a whole lot to support and maintain the boys in the trenches by buying Liberty Bonds.

The following figures give one a definite idea of what his or her loan to the government by the purchase of Liberty bonds will accomplish when used by the war department:

One \$50 bond will buy trench knives for a rifle company, or 23 hand grenades or 14 rifle grenades, or 37 cases of surgical instruments for enlisted men's belts or 10 cases or surgical instruments for officers' belts.

A \$100 bond will clothe a soldier or feed a soldier for eight months, or purchase 5 rifles, or 30 rifle grenades, or 43 hand grenades, or 25 pounds of ether, or 145 hot water bags or 2,000 surgical needles.

A \$500 and a \$50 bond will clothe and equip an infantry soldier for service overseas or feed a soldier for a year.

Two \$100 bonds will purchase a horse or mule for cavalry, artillery, or other service.

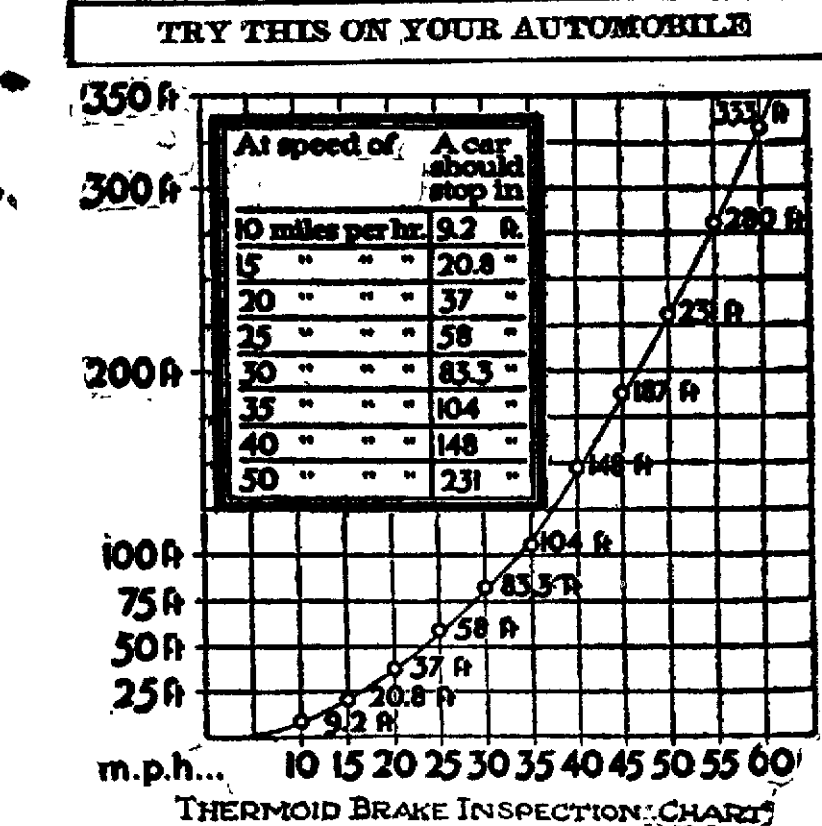

Three \$100 bonds will clothe a soldier and feed him for one year in France or buy a motor cycle for a machine gun company.

Four \$100 bonds will buy an X-ray outfit.

One \$500 bond will supply bicycles for the headquarters company of an infantry regiment.

The White Sox are trying out a pitcher named Muser. If he can live up to his name and muser up his opponents, Mr. Rowland's cherry smile will be broadened a notch or two.

Fred Fulton has been offered a big money contract for a ten-weeks vaudeville tour before he tackles Jess Willard July 4.

The up-to-date motorist must know in what space he can stop his car. The average motorist, experts say, uses his brakes from 20,000 to 30,000 times a year. Two-thirds of the motor accidents, they say, occur when cars are traveling less than 12 miles an hour. Bad brakes are said to be the cause of most of the accidents with which the motoring world is charged. Out of these conditions has come a nation-wide movement to have motorists inspect their brakes at regular intervals, so as to be sure they are in perfect condition.

In connection with this movement, a chart has just been completed by experts, who have been testing hydraulic compressed brake linings regarded as the best kind for general use under varied conditions in account of its moisture-resisting qualities. This brake lining is now in use on many of the American war cars and trucks in France.

Will Your Car Do This?

The chart represents, experts say, the first scientific calculation of exact distances within which a car equipped with proper brake mechanism should come to a stop under average road conditions. It shows what a car should do if its brakes are right.

The average lining for automobile brakes is made up, simply of strips of woven tape which are easily affected by moisture, gasoline, oil and the dust of the road. The kind preferred by particular motorists is made of asbestos fabric impregnated with what is called graptal, and then subjected to 2000 pounds to the square inch of thermoid hydraulic pressure for one hour's time.

CHEMICAL TRUCK MADE GOOD TIME GOING TO FIRE

The home of Thomas Hemphill, located just above Hyde City, was damaged to the extent of several hundred dollars by a fire which started from a defective fuse and which broke out about 2:20 o'clock yesterday afternoon.

When the first was discovered Dr. Hemphill ordered the plant of the Nickel Alloys Company at Hyde shut down and the men rushed to the scene to attempt to save the property from destruction.

A. G. Leonardson, of Kane, who was passing along the road in an automobile, located a telephone and sent word to Manager J. W. Oxley of the Leonardson store, and Mr. Oxley got in touch with the local fire department at once and the Elk Hose Company chemical truck in charge of Assistant Chief Hopier was soon speeding to the rescue on a still alarm.

Thanks to the efforts of the bucket line of steel plant employees and the good work of the firemen with their chemical tanks the fire was confined entirely to the roof and attic.

The Elk Hose Company boys are entitled to praise for their prompt response. Within ten minutes by the clock from the time Assistant Chief Hopier was notified at Kurtz Brothers factory that the truck was wanted the machine and five men were crossing the diamond at the Coal & Hogg. We held the watch and knew what we are talking about. The run to the hosehouse to the scene about three miles was made in seconds.

THREE MEN KILLED AT CAMP HANCOCK BY AN ACCIDENT

Camp Hancock, August, Ga., April 3.—One corporal and two privates are dead, another corporal seriously injured and three privates slightly injured as the result of an accidental explosion in one of the tents of Co. F, 103 Engineers. The dead are Corp. Lloyd Smith, Hoedsa e, Private Jos. Sarone, Old Forge, Pa.; Private S. G. Joshua, New Philadelphia. Seriously injured: Corp. James B. Finan, Hawley, Pa.

All of the soldiers were in the one tent with the exception of Corporal Finan who was in an adjoining tent. The cause of the explosion or the explosive discharged could not be learned. Camp Hancock division headquarters is expected to make some statement on the accident during the day.

GAVE HIM SENDOFF

A party composed of E. T. Lewis, Louis and I. E. Lucas and Albert, Alfred and John Nearhood were here today from Winburne to see Will Nearhood depart for Camp Lee.

Somewhat surprising to read of Jack Dillon being "hammered about the ring" and "knocked to the floor." Only a short time ago the Hoosier battler was humming the best of them.

To be fed to the Dodgers after 22 years of brilliant pastoring has caused the many of one Napoleon Logan to beat it.

WHAT ONE YEAR OF WAR HAS DONE FOR WM. MCADOO

It has placed him in charge of billions of the nation's wealth and billions in loans to the allied governments, as Secretary of the Treasury;

It has made him director-general of American railroads, in charge of \$75,000 miles of track and 1,750,000 employees;

It has given him a voice in the control of all imports and exports by virtue of his representation on the War Trade Board;

It has made him head of the War Risk Insurance Bureau which protects the relatives of 93 per cent of the men in the military and naval service of the United States;

It will establish him as chairman of the board of war finance corporations as soon as that institution is authorized and therefore head of a corporation capitalized at \$600,000,000 and with power to issue \$4,000,000,000 in securities;

It has placed within his control the expenditure of money by states, counties and municipalities through the capital issues committee of the Federal Reserve Board;

It has made him the largest collector of tax in the world;

In addition, the war has given McAdoo half a dozen odd jobs any one of which might be considered manly.

Such as chairman of the American Section of the International High Commission, custodian of ports and foreign properties, head of part of the nation's secret service, and ex-officio chairman of the War Loan Board.

As though Mr. McAdoo is the only Democrat whom the Administration can trust to "win the war."

BEHIND CLOSED DOORS

The most unanswerable retort to the findings of Secretary Baker, George C. and the publicity host in Washington who have been making lullabies to the people about our preparations to be found in the fact that when Gen. Leonard Wood appeared before the Senate Committee on military affairs immediately following his return from France so much of his statement was of a nature which might reflect unfavorably upon this country's lack of preparation that at once an urgent request the entire statement was given behind closed doors not even the committee stenographer being permitted to listen to the testimony. Furthermore, Leonard Wood declared that while we had 1,000 American aviators in France, not a single American aircraft was available for their use despite Secretary Baker's averments of some weeks ago, while the Liberty motor which has been much touted by the Administration is declared by the General and expert to be unsuitable for combat planes, though it may be excellent for bombing purposes. (DuBois Courier)

Free Safe Keeping For Liberty Bonds

Your Liberty Bonds and other valuables should not be kept at home or in the office, protected only by locked doors or ordinary safes.

In our fire- and burglar-proof vault are boxes of various sizes which we offer to customers without charge. Liberty Bonds and other valuable papers should be kept in one of these boxes. Your key is the only one that will open your box.

Private booths permit you to examine the contents of your box in perfect secrecy.

We shall be glad to explain more fully on request.

The County National Bank
OF CLEARFIELD

Capital, Surplus and Profits Over \$1,200,000

FOR COUNTY CHAIRMAN

The editor of The Progress desires to inform the Republican voters of Clearfield county that he is a candidate for the office of Republican County Chairman. He stands unreservedly for Republican principles and for the hearty support of the entire Republican ticket as it may be selected at the coming primaries. He feels encouraged and gratified that the personnel of the Republican candidates for the various offices to be filled at this year's election is such as will command the support of the party. He positively refuses to be a faction candidate and will have nothing to do with any faction that might now exist or should come into being.

G. Albert Stewart was born in Bradford Township July 28, 1890 and has resided in the county all but a little over four years of his life. He does not have an acquaintance with Republicans throughout the county but believing his record to be clean, he invites Republicans throughout the county to inquire among their friends as to his fitness for the office.

JORDAN IS FEEDING 4200 PERSONS EVERY WEEK

Jordan's restaurant feeds forty-two hundred persons every week, according to Proprietor Ralph Jordan's records. In making up his report to local Food Director Short in compliance with the Federal food regulations regarding wheat saving by public eating houses, Mr. Jordan finds that each individual customer at his "feed foundry" consumes one and one half ounces of bread or buns per meal or lunch.

While this looks like a very small portion it counts up in the aggregate. Accordingly there is a weekly consumption of bread and buns to the amount of two hundred and sixty pounds. In addition to this one hundred and twenty-three pounds of flour are consumed weekly in the making of pie crusts, gravies, etc. The cooks find that oatmeal makes an ideal substitute for pie crusts.

Proprietor Jordan is observing the food regulations to the letter and further assisting in the prosecution of the war by investing his surplus revenues in Liberty Bonds, War Savings, etc.

PARTY IN HONOR OF TWO DRAFTS

Miss Augusta Mitchell entertained last evening at her home on Third street in honor of Francis Elzweiler who left today with Clearfield's contingent for Camp Lee and William Kennard who will leave Saturday with Pittsburgh's quota.

Cards and music furnished entertainment for the guests and at a late hour an excellent lunch was served. When the guests departed they wished the boys the best of luck.

MOVED THEIR OFFICES

Tax Collector Lloyd Jacobs has removed his office to his home on West Fourth avenue.

Walter Welch, Esq., has removed his office from the Murray Building to the rooms over the McCrory Five and Ten Cent store lately vacated by Tax Collector Jacobs.

Jack Egan, manager of the Providence team last season, has succeeded Ned Egan as manager of the Milwaukee team. Ned was seriously hurt in a skating accident recently which caused him to resign as pilot of the Brewers.

If you don't read every page of The Progress you are bound to miss something interesting.

Where Your Money Goes

CAUSE IN NEW LAW PUZZLES FISHERMEN
Sportsmen in this locality who are contemplating the celebration of the opening of the trout season on April 10, are in a quandary as regards the interpretation of the section of the new laws relating to the number of fish which may be taken in a single day.
The new laws this season reduces the day's limit on trout from forty to twenty-five and distinctly states that no person shall catch, kill or have in his possession in any one day more than twenty-five trout.

What Does This Mean?
Does this mean that no person shall have in possession in any one day more than twenty-five trout, no matter how many days he may have fished and whether the fish were taken according to the law prescribing the day's limit? It hardly seems that such is the intent of the law, but nevertheless article V, section 35, of the new laws, says:
"The person who has in his possession more than the number of fish hereby provided, shall, in any one day, catch, kill or have in possession more than the number of fish hereby provided." (Emphasis supplied.)
There is nothing in this article which provides for the number of fish which may be taken in any one day. The only provision relating to the number of fish which may be taken in any one day is the provision that no person shall have in his possession more than the number of fish hereby provided.
The question is asked: "What does this mean?"
The answer is: "It means that no person shall have in his possession more than the number of fish hereby provided." (Emphasis supplied.)
The question is asked: "What does this mean?"
The answer is: "It means that no person shall have in his possession more than the number of fish hereby provided." (Emphasis supplied.)

HONOR FLAG WILL REWARD BUYERS
Every Community in the United States Is Requested to Fly Banner in Third Drive
WOMEN MAKE SILK ONES AS GIFTS TO THE CITIES
Honor Rolls Will Be Displayed at State Capitals and Grand Roll at Washington

The Liberty Loan Honor Flag is to be one of the big features of the Third Liberty Loan drive. It is the creation of James H. Burton of New York City and has the hearty endorsement of Secretary of the Treasury McAdoo who has expressed the hope that every town in the United States will be flying one of the flags before the campaign for the third drive is very far along.
The flag which will be awarded by the Treasury Department to each community as its quota is attained is a flag of white, with a red border and with three blue stripes running diagonally through the middle.
In many of the cities patriotic women are going a step further than the Treasury Department and are working on the manufacture of a silk Honor Flag to be ready for flying when they have earned the right to display it. In Cleveland the girls of the Junior League are sewing on a huge flag, following the comparative dimensions of the official flag which the Treasury Department awards, and they mean to donate it to the central committee before Cleveland will have reached its quota.
Women's Clubs Make Them.
In some of the other cities and towns of the Fourth Federal Reserve district church societies and women's clubs are planning to make a flag larger than the official one. But great care is being taken by these volunteer flag makers not to get away from the proportionate measurements of the official flag.
The raising of the flag in each community should be a gala event and preparations are being generally made for patriotic addresses, entertainments, parades and other forms of festivities at the time when the banners shall be officially flown.
The raising of a sample Honor Flag over the Treasury building in Washington recently was a picturesque sight. For the first time in the history of the Treasury Department every one of its employees stopped work for fifteen minutes to attend a public event.
Five thousand persons broke into wild cheering in the thronged streets in front of the building as Lewis B. Franklin, director of the War Loan organization, pulled the flag to the top of the pole from which it flies.
Mrs. McAdoo Made First.
The making of the first flag in Washington was superintended by Mrs. William G. McAdoo, wife of the Secretary of the Treasury.
When the campaign gets under way there will be an honor flag in each state, at the capital, and a national honor flag in Washington. With the state flag there will be displayed a state honor roll on which will be inscribed the name of every community in the state as fast as the communities subscribe their quota and with the right to fly their flag.
In Washington the names of the states will go on the National Honor Roll as fast as the states attain their quotas.
The idea of the Honor Flag and Honor Roll system is to inspire that friendly rivalry between communities and units of population which will result in a maximum number of subscriptions to the loan and add the keen edge of competition to the selling bee.
Window Cards Are Important.
Window cards bearing a replica of the honor flag and a blank for the name of the purchaser will be given to each subscriber for display in the window of his home. The window cards measure 17x11 inches. They are not only a testimonial to the loyalty of the householder who has

WHAT HAVE YOU LEARNED FROM THIS GREAT WAR
By Gelett Burgess
Of The Vigilantes

What have you learned from this first year of the War?
Have you learned that no Peace is possible but one founded upon the Triumph of Democracy?
Germany's faithlessness to her treaty agreements in Belgium has had its sequel in her deceit in Russia. Germany's frightfulness is the deliberate policy of autocracy in its design to enslave the world. All pretenses of liberal reforms have been drowned in the rising lust for world-conquest.
Intoxicated by self love and ruthless ambition the Kaiser and his war lords seek to bring all civilization under the reign of brute force. Nation after nation has fallen their prey. If we are to survive, that malign doctrine of Might-makes-Right must be destroyed forever.
Have you learned that you, too, can fight in the battle for Freedom?
Lend your money to the Liberty Loans; give it to the Red Cross. Every dollar lent the Government helps equip a soldier; every dollar to the Red Cross succors him in his time of need. If you are a patriot you can no more keep out of these "drives" than, if a soldier, you could refuse to go over the top into No Man's Land.
Dollars are soldiers, too! Your dollars will fight to end the war. Each private may think his own worth small—but all together they make an army. Your dollar seems small, but if each does his share the war will have sufficient backing.
For your boy's sake, if he is "over there," subscribe! You would not refuse to help a pal? Well, you have a million pals help them!
Have you learned that the Enemy is here—with us, too?
The soldiers' blood, in the trenches, is not only drained by flying shells—it is sucked by rats and lice. Here at home we have a human vermin preying upon us. Just as evil and insidious as the trench pests are the pro-German spies and propagandists and the pacifists who seek to impede or discountenance the war. Watch them, watch for them, seek them out.
Let no seditious word or act go unreported. Let the alien enemy subject declare plainly where he stands, whether he is for us or against us. If German born, urge him to join the League for Americans of German Origin and thus manifest at once his ineradicable love for the Fatherland and his devotion to his adopted country. Those who are not for us are against us!
Have you learned that your Patriotism is being tried by your Faith and your Works?
Be not cast down by defeat. Spread no rumors of calamity. When the dark days come, encourage the timid and fearful, reprove the alarmists and backsliders. Aroused now to the solemnity of the situation, the duty will be performed to the end—victory! Yet only when every one does his full share shall that victory come.
Urge haste, urge thoroughness, urge unremitting effort. Take the war seriously, for war is grim work, and we have an enemy who thinks of nothing but efficiency. Our soldiers are not only to be amused, but armed

one in his window but they are of great value from an advertising standpoint. If John Jones has one in his window to greet the gaze of Bill Smith, who hasn't bought a bond, every time Bill Smith goes by Jones' home, it will not be long before it penetrates to Smith's slower comprehension that he has a duty to perform. And eventually Bill Smith's window is going to have to have a flag, too.

Gossip for Tonight's Tea Table

A. C. Shoff of Madera was in town yesterday attending to business.
Thomas H. Alexander of DuBois transacted business at the county seat yesterday.
Born to Mrs. and Mrs. Vernon Johnston last evening at their home in Jersey Shore a son. Mrs. Johnston was formerly Miss Irvine Smith, daughter of Mrs. Carrie Smith of this city.
Misses Ethel Shaw and Myrtle Mitchell returned home last evening from a very pleasant visit with Miss Mitchell's uncle, A. B. Mames at the Eagle Hotel, Karlsruhe.
Mr. and Mrs. Geo. Jones and son Raymond and Miss Gladys Mitchell spent Easter with Geo. W. Ardary and family near Glen Richey.
Mrs. Margaret Lydie has returned to her home in DuBois after a visit with her sister Mrs. Norman Gearhart of this city.
A. T. Kearney transacted business at DuBois yesterday.
Mrs. Isaac Robinson and sister arrived yesterday from New York.
Miss June Barrett arrived home yesterday from Wilcox where she has been visiting her uncle Dr. Stanley Barrett and family.
Mrs. A. B. Farwell of Akron, Ohio, who is visiting her daughter at Hyde spent the day with friends in town.
Mrs. Campbell of New Milport, spent the day in Clearfield with her son Ralph who left here today with the contingent for Camp Lee.
Charles Thoburn of Mitchell station attended to business in town today.
Andrew Nordstrum of Wapburne, transacted business in town today.
George I. Thompson and son Clyde returned yesterday from Philadelphia where they have been spending the winter.
Mr. and Mrs. R. B. Henry and daughter of Akron, Ohio are visiting Mrs. Henry's parents Mr. and Mrs. G. W. Flegel of Sixth street.
Mr. Samuel Duxon is ill at her home on Cemetery Road.
John H. Moore, Richard Sheehy, Russell Bratton, Ira McClokey and Frank Stewart left this afternoon for Toledo, Ohio, where they will drive home Overland cars for the Lee Garage Co. They were joined at Altoona by a party of men who will also drive cars home from Toledo.
Mr. and Mrs. Howard Lames and daughter Myrtle of Pittsburgh and Mr. and Mrs. John Lames and daughter Florence of Philadelphia spent Easter with their mother Mrs. Martha Lames of Leavy avenue.
and taught to fight. Insist that this comes first.
More guns, more ships, more airplanes! Is your Congressman or Senator lagging? Punch him up. Act every day as if your life and your wife were in danger. They are! Speed up the war!
Have you learned that Waste is Treason?
Upon our Allies depend not only for men and munitions but for food and clothing. If our permanent liberty is to be won, they must for a while defend it for us, till we, too, can fight. Shall we waste, then, while they want? While they are to be fed and clad, waste is treason. Save wheat, save meat, save wool! The war needs everyone's strictest economy.
The good ship Democracy is sorely beset by the storm. Shall the passengers revel while the crew starve? Divide! Divide, and save the ship lest all be lost!

A CLEAR COMPLEXION
Ruddy Cheeks—Sparkling Eyes—Most Women Can Have
Says Dr. Edwards, a Well-Known Ohio Physician
Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.
These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.
If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.
Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

FRENCH AIRMEN ACTIVE BRITISH STOP THRUSTS

GERMANY BLAMES WEATHER FOR STOP IN DRIVE AND THREATEN BIG THINGS IN NEAR FUTURE

SNEER AT SUCCESSSES OF THE ALLIES

Amsterdam, April 3.—The pause in the fighting is a necessity, the same as in Italy on the Tagliamento. "Rain has greatly hampered our transportation," according to a Berlin dispatch published in the Cologne Gazette today.

The Volks Zeitung declared the pause is not due to the enemy's success but to the order of the German command. Railroads and bridges must be repaired and munitions and supplies sent up. The enemy will soon realize we intend to go on.

HAIG'S REPORT

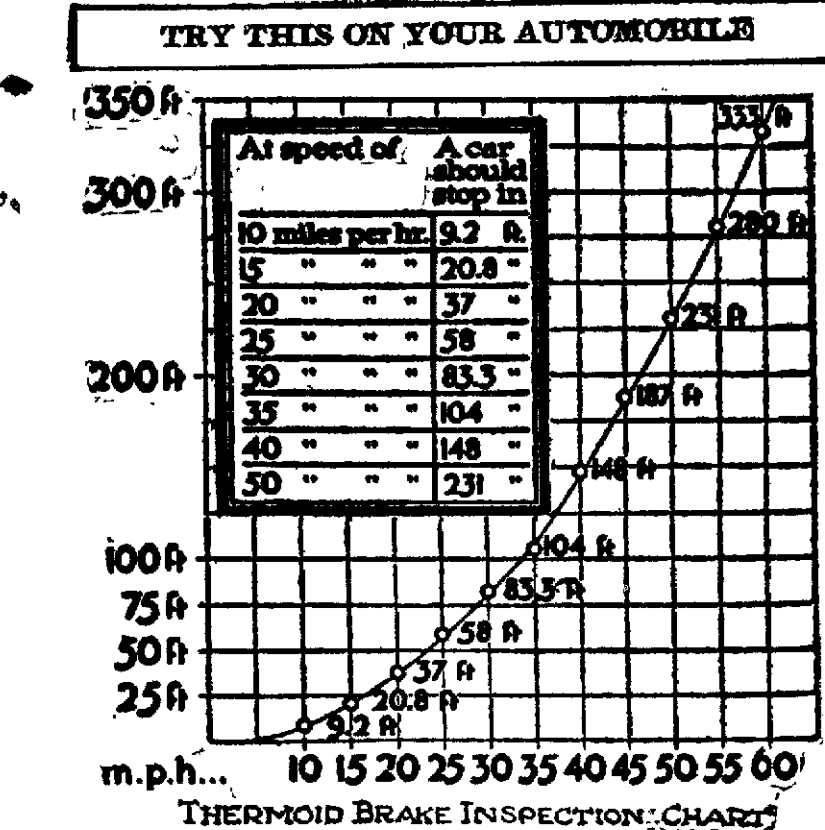

THE FRENCH REPORT

By United Press
London, April 3.—In the neighborhood of Fampoux a strong enemy party attacked yesterday at dawn but was repulsed after sharp fighting. Field Marshal Haig reported today. A number of German dead were left on the field. A few prisoners were taken. (Fampoux is 4 miles east of Arras.) In the neighborhood of Arette which is now ours a successful local operation last night resulted in more than a 100 prisoners captured and three machine guns taken. (Arette is 10 miles south of Arras.) In the neighborhood of Serre a few prisoners were taken yesterday. (Serre is about 5 miles southwest of Arette.) Successful raids in the neighborhood of Loos and in the neighborhood of Poelcapelle resulted in the capture of prisoners and a few machine guns. (Loos is three miles north of Arras; Poelcapelle is 6 miles northwest of Ypres in Belgium.)

By United Press
Paris, April 3.—On the Somme and Oise fronts there was increased mutual artillery firing the French war office reported today. South of Moreuil between Moreuil and Mailly Rainevr (2 1/2 miles southwest of Moreuil) a German attack only gained a footing at one point in our advance lines. North of Rollet an enemy attempt broke down. On the north of Kemont the French succeeded in detailed operation considerably enlarging their position and took 60 prisoners. French aviators on Sunday and Monday threw 24,000 pounds of projectiles on railroads and camps in the vicinity of Ham Chauny, Noyon and Roye. A big fire started in the Chaunys station. Eight German machines were brought down.

The Western league is to have several new members this season. Among the new-comers are Bill Jackson at Omaha, Rudy Hulswilt at Joplin, and Johnny Nee at Topeka.

Jack Malone is the latest St. Paul boxer to make a bid for fame. Malone looks like a comer and he may in time share fistie honors with the other Minnesota stars, Fulton, Ertle, O'Dowd and the Gibbons brothers.

The up-to-date motorist must know in what space he can stop his car. The average motorist, experts say, uses his brakes from 20,000 to 30,000 times a year. Two-thirds of the motor accidents, they say, occur when cars are traveling less than 12 miles an hour. Bad brakes are said to be the cause of most of the accidents with which the motoring world is charged. Out of these conditions has come a nation-wide movement to have motorists inspect their brakes at regular intervals, so as to be sure they are in perfect condition. In connection with this movement, a chart has just been completed by experts, who have been testing hydraulic compressed brake linings regarded as the best kind for general use under varied conditions, a chart of its moisture-resisting qualities. This brake lining is now in use on many of the American war cars and trucks in France.

Will Your Car Do This?

The chart represents, experts say, the first scientific calculation of exact distances within which a car equipped with proper brake mechanism should come to a stop under average road conditions. It shows what a car should do if its brakes are right.

The average lining for automobile brakes is made up, simply of strips of woven tape which are easily affected by moisture, gasoline, oil and the dust of the road. The kind preferred by particular motorists is made of asbestos fabric impregnated with what is called graptol, and then subjected to 2000 pounds to the square inch of thermoid hydraulic pressure for one hour's time.

COUNT CZERNIN IN SPEECH TELLS OF PRESIDENT'S AIM

By United Press
Amsterdam, April 3.—Count Czernin, Austrian foreign minister, addressing the Vienna municipal council declared President Wilson probably considered Vienna more favorable ground for sowing seeds of international peace than Berlin. Czernin said Austria's new ruler is favorable toward peace and that her fifty million people shared that view. To these people Czernin said Wilson is devoting his activities.

Serbia desires peace, declared Czernin, but the Allies prevent it. After being conquered militarily our enemy must be conquered morally. We do not intend to beg for peace but will enforce it by our moral rights and physical strength. Other tactics will prolong the war. Czernin's speech as received here is incomplete.

Washington—Peace talk—in the wake of Austrian and German diplomacy in the East and Russia—does not interest Washington. This is the very plain answer given by officials and diplomats today to the belated reply of the Austrian minister of Foreign Affairs to President Wilson's last war aims address. President Wilson may be said officially to feel that there is no honest intention on the part of Germany and Austria to establish a basis for a just and lasting peace. He has searched the previous peace utterances for intimation of this. In the speech of Count Czernin some weeks ago he thought he saw the possibility of an honest peace desire. Since then Czernin completely surrendered to the will of the German Junkers and the arrogant peace terms imposed on Roumania has extinguished that hope of the President.

MEET GEN. "FOSH"

New York, April 3.—The name of General Foch should be pronounced to rhyme with bosh according to Stephanie Lauzanne, editor of Le Matin of Paris, who is a French scholar.

The annual congregational meeting of the Presbyterian church will be held tonight after prayer meeting. Prayer meeting services will be at 7:30.

CHEMICAL TRUCK MADE GOOD TIME GOING TO FIRE

The home of Thomas Hemphill, located just above Hyde City, was damaged to the extent of several hundred dollars by a fire which started from a defective oil and which broke out about 2:20 o'clock yesterday afternoon.

When the first was discovered Dr. Hemphill ordered the plant of the Nickel Alloys Company at Hyde shut down and the men rushed to the scene to attempt to save the property from destruction.

A. G. Leonardson, of Kane, who was passing along the road in an automobile, located a telephone and sent word to Manager J. W. Oxley of the Leonardson store, and Mr. Oxley got in touch with the local fire department at once and the Elk Hose Company chemical truck in charge of Assistant Chief Hopier was soon speeding to the rescue on a still alarm.

Thanks to the efforts of the bucket line of steel plant employees and the good work of the firemen with their chemical tanks the fire was confined entirely to the roof and attic.

The Elk Hose Company boys are entitled to praise for their prompt response. Within ten minutes by the clock from the time Assistant Chief Hopier was notified at Kurtz Brothers factory that the truck was wanted the machine and men were en route. We held the watch and knew what we are talking about. The run to the hosehouse to the scene about three miles was made in seconds.

Democratic Organization Refuses To Concede Victory To Lenroot Until Returns All In

GERGER RUNS A POOR THIRD

Milwaukee, April 3.—With returns from all sections showing Ivine Lenroot, Republican, leading by a substantial margin everywhere except in Milwaukee and a few scattered German districts, adherent of Joseph Davies, Democrat, refuse this afternoon to concede a Lenroot victory for the United States Senatorship. Republicans were claiming a majority of 20,000 for Lenroot although Lenroot's vote was only 9,000 over Davies at that time. Victor Berger, "one hundred per cent. peace" candidate of the Socialists, supported by the pro-German element, was a poor third, though his vote was large compared with the Socialistic vote in former years.

GERMANY GETTING BREADSTUFFS OUT OF UKRAINIA

By Joseph Shaplen
Copyrighted 1918 by United Press
Petrograd, April 3.—Trading between Ukraine and Germany is in full blast. Great stores of bread are being transported from Kiev to Berlin by railway under supervision of the German commission. The forces of the Ukraine Soviet in the Konotop region have retired. After inflicting heavy casualties the enemy reached Sarym toward Rovensk. Soviet forces which were evacuating Voroshna attacked the fourth German army. On the Kharkoff front the enemy retreated in the region of Achitirsk in Levediani. The Soviet is mobilizing forces to defend Kharkoff. Citizens have evacuated Ekaterinoslav in view of the enemy advance. A severe battle is raging near Evakevo.

THREE MEN KILLED AT CAMP HANCOCK BY AN ACCIDENT

Camp Hancock, August, Ga., April 3.—One corporal and two privates are dead, another corporal seriously injured and three privates slightly injured as the result of an accidental explosion in one of the tents of Co. F, 103 Engineers. The dead are Corp. Lloyd Smith, Hoedsa e, Private Jos. Sarone, Old Forge, Pa.; Private S. G. Joshua, New Philadelphia. Seriously injured: Corp. James B. Finan, Hawley, Pa.

All of the soldiers were in the one tent with the exception of Corporal Finan who was in an adjoining tent. The cause of the explosion or the explosive discharged could not be learned. Camp Hancock division headquarters is expected to make some statement on the accident during the day.

GAVE HIM SENDOFF

A party composed of E. T. Lewis, Louis and I. E. Lucas and Albert, Alfred and John Nearhood were here today from Winburne to see Will Nearhood depart for Camp Lee.

Somewhat surprising to read of Jack Dillon being "hammered about the ring" and "knocked to the floor." Only a short time ago the Hoosier batter was humming the best of them.

To be fed to the Dodgers after 22 years of brilliant pasturing has caused the name of one Napoleon Lehigh to beat it.

BAKER STOPS NEWS ABOUT CASUALTIES ON WEST FRONT

Washington, April 3.—Publication of casualty lists from the war department was stopped today, the direct result of Secretary of War Baker's message decreeing that American headquarters' news must come only from the American headquarters in France. No lists will be issued today and none will be published from now on unless the rule is modified. Acting Chief of Staff March held that "Baker's order refers to the Department in giving out casualties inasmuch as it concerns persons under headquarters' jurisdiction."

Baker's order said news of persons and policies in Pershing's expedition should be announced solely by Pershing's headquarters. As a result of this order the Communique from General Pershing as to west front activities can be given out only at headquarters and not here. The tendency will be to stop the publication of news filtering through to Washington.

INTER-CLASS BASEBALL AT C. H. S.

There will be a number of baseball games among the different classes of the High School. The Senior class is believed to have the strongest team outside of the faculty team who say they are going to give a surprise. The Juniors, Sophomores, and Freshmen should also develop fast teams.

The Senior class challenge any of these teams to a game a week from next Friday.

It was impossible to finance a High School team for such a short season.

ACCIDENTALLY SHOT WHEN DEER JUMPS UP IN WOODS

Logan, the sixteen year old son of Mr. and Mrs. Theodore A. Cramer, of Sixth street, is a patient in the Clearfield hospital on account of an ugly bullet wound in the right leg which he accidentally inflicted yesterday morning.

Young Cramer, Leroy Brett and "Patty" Weimer all high school boys, received permission from their parents to spend the Easter vacation at Crooked Run camp. They arrived at the Camp Sunday afternoon and had since been enjoying life in the woods up until yesterday morning. About 11 o'clock they were shooting mark near the camp with their revolvers. It was Cramer's turn to shoot and as he fired the target a deer jumped out of the brush within thirty yards of the marksmen. One of the boys yelled "Oh look at the deer!"

Loweing the cocked revolver Cramer, guided in the direction the deer boy was pointing a revolver at him. The deer became excited and unconsciously pulling the trigger sent a 38 calibre bullet crashing downward through his right leg. The ball entered above the knee and followed down through the thigh for a distance of eight or nine inches, coming out at the upper part of the calf of the leg.

The other boy help in applying first aid to the corp and in applying first aid with the first aid band. Cramer then left for his home. It was a six mile trip and a considerable time. The wound was exceedingly painful and thanking his companion had lost his way on account of the length of time away. Brett made the injured boy as comfortable as possible and he returned for civilization and help. He met Warner and Dr. Lewis a mile or so below the camp and returned with them to Cramer. Dr. Lewis soon fixed the boy up and carried him to Winburne in his automobile where he was placed on the River Line train and brought to the office of Dr. Waterworth and from there taken to the Clearfield hospital where the injury was attended to.

The injury while very painful is not as serious as might have been expected as fortunately no bones were broken.

Put that part ad in the Progress and get results.

DISTRICT NO. 1 SENDS 52 MORE TO CAMP LEE

FINAL CONTINGENT OF FIRST CALL LEAVES CLEARFIELD AT 3.45 THIS AFTERNOON TO JOIN "BLUE RIDGE DIVISION"

MINERS' EX-PRESIDENT A SPEAKER

The local Exemption Board headquarters was an extremely busy place this morning where the entire force was engaged in completing the many details incident to the entraining of the fifty-two men of the final contingent of the first draft from District No. 1 for Camp Lee.

The men all reported at 8:30 o'clock and after being properly marked up and having their baggage checked were excused for dinner with orders to report at headquarters promptly at 1:30 p. m.

Each man was provided with a sweater and comfort kit, the same being supplied by the Red Cross chapters in the communities from which he came. Those coming from districts where there were no local Red Cross chapters were supplied by the Clearfield chapter, which was called upon for and provided thirty-five sweaters.

At 1:30 the men were assembled at headquarters and after being given final instructions were placed in charge of Malcolm B. McKee, of DuBois and Joseph Spingola, of Clearfield who will conduct the party to Camp Lee, and then marched to the court house.

Following the roll call in the court room Rev. E. V. Brown opened the exercises with an eloquent prayer.

John P. White, National President of the U. M. W. of A., who is in Clearfield attending a conference of representatives of the Federal Fuel Administration, the operators and miners of the Central Pennsylvania field, was happily secured by Chairman Woodward of the Public Safety Committee, to address the men. President White is a finished orator and he made a stirring speech to the men, pointing out to them that as soldiers of democracy in the great crucial war now engulfing the world, they were to be proud of their duty.

Chief Clerk John M. Bain of the Exemption Board then made a lucid explanation of the War Risk Insurance and Soldier's Allotment and Compensation.

City Superintendent George E. Zerfoss, the speaker of the day, delivered an inspiring patriotic address to the assemblage. Prof. Zerfoss gave the boys the right kind of a straight from the shoulder talk, but his remarks were highly appreciated and was demonstrated by the applause which greeted them.

Headed by the Exemption Board the march to the station was taken up at 3:35 and after a final farewell to friends at the station the boys climbed aboard the regular 3:45 Pennsylvania passenger train and were "off to war" with the cheers of the several hundred people gathered to wish them God-speed, ringing in their ears.

Following is a list of the men who made up the party:

- Joe Spingola, Clearfield
- Robert Logan, Clearfield
- Malcolm B. McKee, Akron-Ohio
- William Bleck, Clearfield
- Francis L. Etzweiler, Clearfield
- Andrew F. Edgren, Munson
- Howard A. Trump, Woodland
- Howard H. Shaw, West Decatur
- Thomas L. Stevens, Bigler
- John A. Johnson, Lanes
- Wm. H. Nearhood, Winburne
- Wm. Twoey West Decatur
- Jess Edmiston, Hawk Run
- Ralph Campbell, Glen Richey
- James T. Pagan, Philipsburg
- Andrew Lesko, Hawk Run
- Joseph A. Bargey, Frenchville
- Carl Wick, Munson
- Adolph Johnson, Lanes
- Paul Kyles, Winburne
- George Wm. Shillenn, Clearfield
- Anthony Wildizas, Munson
- Carl Robert Larson, Winburne
- John Leo Mayley, Hawk Run
- Stanley S. Salski, Munson
- Paul Buckford, Clearfield

Ralph P. Luke, Morrisdale
Krist Gurgul, LeContes Mills
George J. Beck, Grassflat
John E. Hamlin, Kylertown
Gaetano Lobsedo, Curwensville
Franklin E. Woodling, W. Decatur
Dayton B. Spackman, Woodland
Louis Zoltoki, Clearfield
Hughie A. Poole, Clearfield
John Buck, Jr., Munson
Vincenzo Aveni, Woodland
James Harper, Glen Richey
John F. Johnson, Glen Richey
Guy William Cowder, Woodland
Oscar G. Edgren, Munson
Enoch J. Haywood, Hawk Run
Wilber DeWitt Ogden, Clearfield
John Nothnagle, Patton
William V. Sharp, Clearfield
Clair Wm. Hadden, Clearfield
Quintellio Rossi Curwensville
Victor G. Rydberg, Grassflat
William Dascavage, Munson
John Armstrong, Clearfield
Harry L. Carlson Clinton, Wis.

LOAN CAMPAIGN WILL RUN FROM APRIL 6 TO MAY 4

Subscriptions to the Third Liberty Loan will open Saturday April 6th and close Saturday, May 4th.

Those buying bonds on installments will be required to pay five per cent. on application; twenty per cent. on May 28; thirty-five per cent. on July 18; forty per cent. on August 15.

No payments are to be made to the Federal Reserve bank prior to May 5, except that individuals, paying for bonds in full may remit the entire amount of their subscription.

The Secretary of the Treasury reserves the right to allot all subscriptions in full.

If you cannot go to the front and "do your bit" you can do a whole lot to support and maintain the boys in the trenches by buying Liberty Bonds.

The following figures give one a definite idea of what his or her loan to the government by the purchase of Liberty bonds will accomplish when used by the war department:

One \$50 bond will buy trench knives for a rifle company, or 23 hand grenades or 14 rifle grenades, or 37 cases of surgical instruments for enlisted men's belts or 10 cases or surgical instruments for officers' belts.

A \$100 bond will clothe a soldier or feed a soldier for eight months, or purchase 5 rifles, or 30 rifle grenades, or 43 hand grenades, or 25 pounds of ether, or 145 hot water bags or 2,000 surgical needles.

A \$500 and a \$50 bond will clothe and equip an infantry soldier for service overseas or feed a soldier for a year.

Two \$100 bonds will purchase a horse or mule for cavalry, artillery, or other service.

Three \$100 bonds will clothe a soldier and feed him for one year in France or buy a motor cycle for a machine gun company.

Four \$100 bonds will buy an X-ray outfit.

One \$500 bond will supply bicycles for the headquarters company of an infantry regiment.

The White Sox are trying out a pitcher named Musser. If he can live up to his name and maul his opponents, Mr. Rowland's cherry smile will be broadened a notch or two.

Fred Fulton has been offered a big money contract for a ten-weeks vaudeville tour before he tackles Jess Willard July 4.

WHAT ONE YEAR OF WAR HAS DONE FOR WM. MCADOO

It has placed him in charge of billions of the nation's wealth and billions in loans to the allied governments, as Secretary of the Treasury;

It has made him director-general of American railroads, in charge of \$75,000 miles of track and 1,750,000 employees;

It has given him a voice in the control of all imports and exports by virtue of his representation on the War Trade Board;

It has made him head of the War Risk Insurance Bureau which protects the relatives of 93 per cent of the men in the military and naval service of the United States;

It will establish him as chairman of the board of war finance corporations as soon as that institution is authorized and therefore head of a corporation capitalized at \$600,000,000 and with power to issue \$4,000,000,000 in securities;

It has placed within his control the expenditure of money by states, counties and municipalities through the capital issues committee of the Federal Reserve Board;

It has made him the largest collector of tax in the world;

In addition, the war has given McAdoo half a dozen odd jobs any one of which might be considered manly.

Such as chairman of the American Section of the International High Commission, custodian of port and foreign properties, head of part of the nation's secret service, and ex-officio chairman of the War Loan Board.

As though Mr. McAdoo is the only Democrat whom the Administration can trust to "win the war."

BEHIND CLOSED DOORS

The most unanswerable retort to the findings of Secretary Baker, George C. and the publicity host in Washington who have been making lullabies to the people about our preparations to be found in the fact that when Gen. Leonard Wood appeared before the Senate Committee on military affairs immediately following his return from France so much of his statement was of a nature which might reflect unfavorably upon this country's lack of preparation that at once an urgent request the entire statement was given behind closed doors not even the committee stenographer being permitted to listen to the testimony. Furthermore, Leonard Wood declared that while we had 1,000 American aviators in France, not a single American aircraft was available for their use despite Secretary Baker's averments of some weeks ago, while the Liberty motor which has been much touted by the Administration is declared by the General and expert to be unsuitable for combat planes, though it may be excellent for bombing purposes. (DuBois Courier)

Free Safe Keeping For Liberty Bonds

Your Liberty Bonds and other valuables should not be kept at home or in the office, protected only by locked doors or ordinary safes.

In our fire- and burglar-proof vault are boxes of various sizes which we offer to customers without charge. Liberty Bonds and other valuable papers should be kept in one of these boxes. Your key is the only one that will open your box.

Private booths permit you to examine the contents of your box in perfect secrecy.

We shall be glad to explain more fully on request.

The County National Bank OF CLEARFIELD

Capital, Surplus and Profits Over \$1,200,000

FOR COUNTY CHAIRMAN

The editor of The Progress desires to inform the Republican voters of Clearfield county that he is a candidate for the office of Republican County Chairman. He stands unreservedly for Republican principles and for the hearty support of the entire Republican ticket as it may be selected at the coming primaries. He feels encouraged and gratified that the personnel of the Republican candidates for the various offices to be filled at this year's election is such as will command the support of the party. He positively refuses to be a faction candidate and will have nothing to do with any faction that might now exist or should come into being.

G. Albert Stewart was born in Bradford Township July 28, 1890 and has resided in the county all but a little over four years of his life. He does not have an acquaintance with Republicans throughout the county but believing his record to be clean, he invites Republicans throughout the county to inquire among their friends as to his fitness for the office.

JORDAN IS FEEDING 4200 PERSONS EVERY WEEK

Jordan's restaurant feeds forty-two hundred persons every week, according to Proprietor Ralph Jordan's records. In making up his report to local Food Director Short in compliance with the Federal food regulations regarding wheat saving by public eating houses, Mr. Jordan finds that each individual customer at his "feed foundry" consumes one and one half ounces of bread or buns per meal or lunch.

While this looks like a very small portion it counts up in the aggregate. Accordingly there is a weekly consumption of bread and buns to the amount of two hundred and sixty pounds. In addition to this one hundred and twenty-three pounds of flour are consumed weekly in the making of pie crusts, gravies, etc. The cooks find that oatmeal makes an ideal substitute for pie crusts.

Proprietor Jordan is observing the food regulations to the letter and further assisting in the prosecution of the war by investing his surplus revenues in Liberty Bonds, War Savings, etc.

PARTY IN HONOR OF TWO DRAFTES

Miss Augusta Mitchell entertained last evening at her home on Third street in honor of Francis Elzweiler who left today with Clearfield's contingent for Camp Lee and William Kennard who will leave Saturday with Pittsburgh's quota.

Cards and music furnished entertainment for the guests and at a late hour an excellent lunch was served. When the guests departed they wished the boys the best of luck.

MOVED THEIR OFFICES

Tax Collector Lloyd Jacobs has removed his office to his home on West Fourth avenue. Walter Welch, Esq., has removed his office from the Murray Building to the rooms over the McCrory Rice and Ten Cent store lately vacated by Tax Collector Jacobs.

Jack Egan, manager of the Providence team last season, has succeeded Ned Egan as manager of the Milwaukee team. Ned was seriously hurt in a skating accident recently which caused him to resign as pilot of the Brewers.

If you don't read every page of The Progress you are bound to miss something interesting.

Where Your Money Goes

Following is a list of the orders drawn by the county commissioners in account of county and poor district business for the past week:

"TELL IT TO THE MARINES" THEY WILL DO THE REST

Paris Island, S. C., April 3.—In response to General Pershing's recent call for 5,000 carrier-pigeons, U. S. Marines here, who have aided the Government in nearly every conceivable manner heretofore, again have come to bat with a pigeon-raising campaign.

The carrier is an invaluable little weapon in the war but is far too scarce for the immediate needs. So the Marines have begun the training of them on the island, having secured 300 of the birds from the homes of various members of the Marine Corps. Starting with short flights on the island and increasing the distance to neighboring towns, plans are now being made for trial flights from Washington, D. C., to this camp.

Meanwhile, although several have been lost in training, the carriers are rapidly increasing in numbers, and the Marines are hoping to be able to fill General Pershing's order by themselves, and in addition, sending the pigeons across the water already trained in their line of duty.

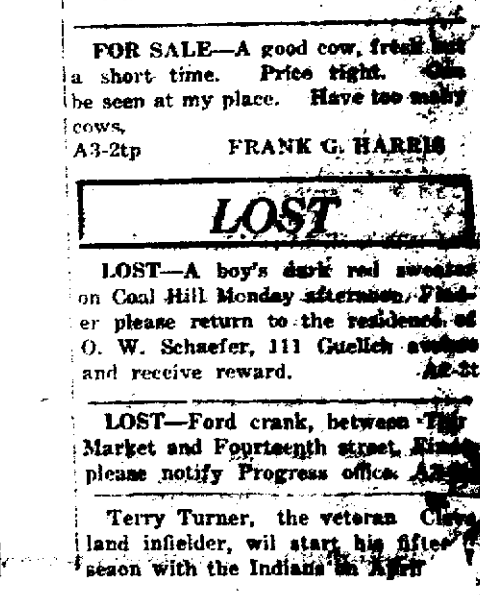

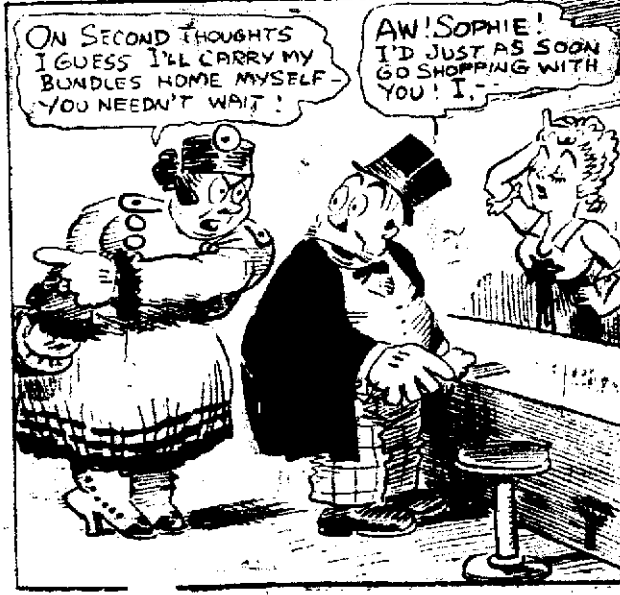

MR. AND MRS. O'NEIL ENTERTAIN

Mr. and Mrs. Charles O'Neil entertained John P. White, President of the U. M. W. of A. and a member of the United States Fuel Administration at Washington, D. C., and a party of friends last evening at their home on Nichol street.

Cards and music furnished delightful entertainment for the guests and at a late hour the hostess served a delicious lunch.

CHASE IN NEW LAW PUZZLES FISHERMEN

Sportsmen in this locality who are contemplating the celebration of the opening of the trout season on April 10, in a quandary as regards the proper interpretation of the section of the new laws relating to the number of fish which may be taken in a single day.

The new laws this season reduces the day's limit on trout from forty to twenty-five and distinctly states that no person shall catch, kill or have in his possession in any one day more than twenty-five trout.

What Does This Mean?

Does this mean that no person shall have in possession in any one day more than twenty-five trout, no matter how many days he may have fished and or whether the fish were taken according to the law prescribing the day's limit? It hardly seems that such is the intent of the law, but nevertheless article V, section 35, of the Fish Laws, says:

"The person who is in this article provided, shall, in any one day, catch, kill or have in possession more than the number of fish hereby specified for the respective species: trout, ten; bass, five; perch, five; muskellunge, one; pickerel, one; and any other species, twenty-five."

There is nothing in this article which provides relating to the number of having in possession more than twenty-five trout.

Interpretation is Asked

Persons who have selected the trout season for some contradictory reasons have failed to find it and if such is the strict interpretation of this act then the fellow who goes fishing and catches twenty-five trout is due to start for home no matter how many days he originally intended to remain on the stream. Should such be the exact meaning of the law then the day for fish hogs is over and the length of time for fishing expeditions will be governed entirely upon the success of the first day's catch.

MILLIE BUCHANAN ENTERTAINS

Miss Millie Buchanan entertained twenty guests last evening at her home on Third street.

Dancing and music were indulged in until a late hour when excellent refreshments were served.

HONOR FLAG WILL REWARD BUYERS
Every Community in the United States Is Requested to Fly Banner in Third Drive
WOMEN MAKE SILK ONES AS GIFTS TO THE CITIES
Honor Rolls Will Be Displayed at State Capitals and Grand Roll at Washington

The Liberty Loan Honor Flag is to be one of the big features of the Third Liberty Loan drive. It is the creation of James H. Burton of New York City and has the hearty endorsement of Secretary of the Treasury McAdoo who has expressed the hope that every town in the United States will be flying one of the flags before the campaign for the third drive is very far along.

The flag which will be awarded by the Treasury Department to each community as its quota is attained is a flag of white, with a red border and with three blue stripes running perpendicularly through the middle.

In many of the cities patriotic women are going a step further than the Treasury Department and are working on the manufacture of a silk Honor Flag to be ready for flying when they have earned the right to display it. In Cleveland the girls of the Junior League are sewing on a huge flag, following the comparative dimensions of the official flag which the Treasury Department awards, and they mean to donate it to the central committee before Cleveland will have reached its quota.

Women's Clubs Make Them.

In some of the other cities and towns of the Fourth Federal Reserve district church societies and women's clubs are planning to make a flag larger than the official one. But great care is being taken by these volunteer flag makers not to get away from the proportionate measurements of the official flag.

The raising of the flag in each community should be a gala event and preparations are being generally made for patriotic addresses, entertainments, parades and other forms of festivities at the time when the banners shall be officially flown.

The raising of a sample Honor Flag over the Treasury building in Washington recently was a picturesque sight. For the first time in the history of the Treasury Department every one of its employees stopped work for fifteen minutes to attend a public event.

Five thousand persons broke into wild cheering in the thronged streets in front of the building as Lewis B. Franklin, director of the War Loan organization, pulled the flag to the top of the pole from which it flies.

Mrs. McAdoo Made First.

The making of the first flag in Washington was superintended by Mrs. William G. McAdoo, wife of the Secretary of the Treasury.

When the campaign gets under way there will be an honor flag in each state, at the capital, and a national honor flag in Washington. With the state flag there will be displayed a state honor roll on which will be inscribed the name of every community in the state as fast as the communities subscribe their quota and with the right to fly their flag.

In Washington the names of the states will go on the National Honor Roll as fast as the states attain their quotas.

The idea of the Honor Flag and Honor Roll system is to inspire that friendly rivalry between communities and units of population which will result in a maximum number of subscriptions to the loan and add the keen edge of competition to the selling bee.

Window Cards Are Important.

Window cards bearing a replica of the honor flag and a blank for the name of the purchaser will be given to each subscriber for display in the window of his home. The window cards measure 17 1/2 inches. They are not only a testimonial to the loyalty of the householder who has

WHAT HAVE YOU LEARNED FROM THIS GREAT WAR

By Gelett Burgess
Of The Vigilantes

What have you learned from this first year of the War?

Have you learned that no Peace is possible but one founded upon the Triumph of Democracy?

Germany's faithlessness to her treaty agreements in Belgium has had its sequel in her deceit in Russia. Germany's frightfulness is the deliberate policy of autocracy in its design to enslave the world. All pretenses of liberal reforms have been drowned in the rising lust for world-conquest.

Intoxicated by self love and ruthless ambition the Kaiser and his war lords seek to bring all civilization under the reign of brute force. Nation after nation has fallen their prey. If we are to survive, that malign doctrine of Might-makes-Right must be destroyed forever.

Have you learned that you, too, can fight in the battle for Freedom?

Lend your money to the Liberty Loans; give it to the Red Cross. Every dollar lent the Government helps equip a soldier; every dollar to the Red Cross succors him in his time of need. If you are a patriot you can no more keep out of these "drives" than, if a soldier, you could refuse to go over the top into No Man's Land.

Dollars are soldiers, too! Your dollars will fight to end the war. Each private may think his own worth small—but all together they make an army. Your dollar seems small, but if each does his share the war will have sufficient backing.

For your boy's sake, if he is "over there," subscribe! You would not refuse to help a pal? Well, you have a million pals help them!

Have you learned that the Enemy is here—with us, too?

The soldiers' blood, in the trenches, is not only drained by flying shells—it is sucked by rats and lice. Here at home we have a human vermin preying upon us. Just as evil and insidious as the trench pests are the pro-German spies and propagandists and the pacifists who seek to impede or discountenance the war. Watch them, watch for them, seek them out.

Let no seditious word or act go unreported. Let the alien enemy subject declare plainly where he stands, whether he is for us or against us. If German born, urge him to join the League for Americans of German Origin and thus manifest at once his ineradicable love for the Fatherland and his devotion to his adopted country. Those who are not for us are against us!

Have you learned that your Patriotism is being tried by your Faith and your Works?

Be not cast down by defeat. Spread no rumors of calamity. When the dark days come, encourage the timid and fearful, reprove the alarmist and backsliders. Amused now to the solemnity of the situation, the war will be performed to the end—victory! Yet only when every one does his full share shall that victory come.

Urge haste, urge thoroughness, urge unremitting effort. Take the war seriously, for war is grim work, and we have an enemy who thinks of nothing but efficiency. Our soldiers are not only to be amused, but armed

one in his window but they are of great value from an advertising standpoint. If John Jones has one in his window to greet the gaze of Bill Smith, who hasn't bought a bond, every time Bill Smith goes by Jones' home, it will not be long before it penetrates to Smith's slower comprehension that he has a duty to perform. And eventually Bill Smith's window is going to have to have a flag, too.

Gossip for Tonight's Tea Table

A. C. Shoff of Madera was in town yesterday attending to business.

Thomas H. Alexander of DuBois transacted business at the county seat yesterday.

Born to Mrs. and Mrs. Vernon Johnston last evening at their home in Jersey Shore a son. Mrs. Johnston was formerly Miss Irvine Smith, daughter of Mrs. Carrie Smith of this city.

Misses Ethel Shaw and Myrtle Mitchell returned home last evening from a very pleasant visit with Miss Mitchell's uncle, A. B. Mames at the Eagle Hotel, Karlsruhe.

Mr. and Mrs. Geo. Jones and son Raymond and Miss Gladys Mitchell spent Easter with Geo. W. Ardary and family near Glen Richey.

Mrs. Margaret Lydie has returned to her home in DuBois after a visit with her sister Mrs. Norman Gearhart of this city.

A. T. Kearney transacted business at DuBois yesterday.

Mrs. Isaac Robinson and sister arrived yesterday from New York.

Miss June Barrett arrived home yesterday from Wilcox where she has been visiting her uncle Dr. Stanley Barrett and family.

Mrs. A. B. Farwell of Akron, Ohio, who is visiting her daughter at Hyde spent the day with friends in town.

Mrs. Campbell of New Milport, spent the day in Clearfield with her son Ralph who left here today with the contingent for Camp Lee.

Charles Thoburn of Mitchell station attended to business in town today.

Andrew Nordstrum of Wapburne, transacted business in town today.

George I. Thompson and son Clyde returned yesterday from Philadelphia where they have been spending the winter.

Mr. and Mrs. R. B. Henry and daughter of Akron, Ohio are visiting Mrs. Henry's parents Mr. and Mrs. G. W. Flegel of Sixth street.

Mr. Samuel Duxon is ill at her home on Cemetery Road.

John H. Moore, Richard Sheehy, Russell Bratton, Ira McClokey and Frank Stewart left this afternoon for Toledo, Ohio, where they will drive home Overland cars for the Lee Garage Co. They were joined at Altoona by a party of men who will also drive cars home from Toledo.

Mr. and Mrs. Howard Lames and daughter Myrtle of Pittsburgh and Mr. and Mrs. John Lames and daughter Florence of Philipsburg spent Easter with their mother Mrs. Martha Lames of Leavy avenue.

and taught to fight. Insist that this comes first.

More guns, more ships, more airplanes! Is your Congressman or Senator lagging? Punch him up. Act every day as if your life and your wife were in danger. They are! Speed up the war!

Have you learned that Waste is Treason?

Upon our our Allies depend not only for men and munitions but for food and clothing. If our permanent liberty is to be won, they must for a while defend it for us, till we, too, can fight.

Shall we waste, then, while they want? While they are to be fed and clad, waste is treason. Save wheat, save meat, save wool! The war needs everyone's strictest economy.

The good ship Democracy is sorely beset by the storm. Shall the passengers revel while the crew starve? Divide! Divide, and save the ship lest all be lost!
